OCBC Hong Kong proudly supports Hong Kong Green Week 2026 as a Gold Sponsor of the HKGFA | GBA-GFA Annual Forum

Hong Kong, 8 Sept 2026 — OCBC Bank (Hong Kong) Limited ("OCBC Hong Kong") is proud to support the 2026 Hong Kong Green Finance Association's (HKGFA) | Greater Bay Area Green Finance Alliance (GBA-GFA) Annual Forum (the "Forum") as a Gold Sponsor, in support of Hong Kong Green Week. Themed *"Bridging Divides: Asia's Leadership in Transition and Resilience"*, the Forum marked the opening of the 2026 Hong Kong Green Week and brought together financial leaders, policymakers and innovators from Hong Kong, the Chinese Mainland, Asia and beyond. This collaboration underscores OCBC's position as a long-standing supporter of sustainable finance in the region and reflects its long-term commitment to Hong Kong as a green finance hub connecting the Mainland China and Southeast Asia.

Now in its ninth year, the Forum has become one of the region's leading gatherings for stakeholders in green and transition finance. Mr Wang Ke, Head of Greater China at OCBC and Chief Executive Officer of OCBC Hong Kong, joined the Forum alongside OCBC Hong Kong's senior management team and engaged with regulators, industry peers and clients throughout the day.

Ms Celina Chan, Head of Sustainability and Sustainable Finance, OCBC Hong Kong, participated in the panel discussion *"Financing Nature's Infrastructure Paradigm"*, where she outlined that nature-based projects are currently at a nascent stage and that presents some challenges in the industry in mainstreaming nature finance. A broader range of stakeholders and capital providers can be engaged through alignment of interests and appropriate incentives.

“While climate action focuses on decarbonisation, nature-based solutions deliver broader outcomes across biodiversity, water and land systems, making their impacts significant yet more complex to quantify. With Hong Kong as a super connector of capital, we believe financial institutions have an important role to play in fostering ecosystems and directing capital towards scalable, high-impact solutions. Stronger public-private collaboration, blended finance approach and risk-sharing mechanisms will enable investment in nature to flourish,” said Ms Chan.
