Flexible Premium Payment Term¹ with Whole Life Protection

The Plan provides 2 choices of Premium Payment Term¹, i.e. 10 years¹ and 20 years¹, with whole life protection until age 100 of the Life Insured.

Broad Cover for 118 Illnesses² without Worries

The Plan covers 60 Major Dread Diseases² and 46 Early Stage Dread Diseases², as well as 12 Severe Juvenile Diseases² to safeguard your health comprehensively. If the Life Insured is diagnosed with covered Dread Diseases, the Dread Disease Benefit of the Plan will be paid. For details of covered Dread Diseases and benefit, please refer to List of Covered Dread Disease and Dread Disease Benefit Schedule.

ICU Benefit³ to Extend Protection

The Plan provides ICU Benefit³ which extends its coverage to health issues beyond dread diseases. If the Life Insured is required for a Qualified ICU Stay⁴ for a total of consecutive 3 days or more due to Sickness or Accident, a payment which is equal to 20% of Sum Assured, less Indebtedness (if any) will be paid as ICU Benefit³. Such benefit will only be paid once.

Family Cancer Benefit⁵ for Extra Peace of Mind

The Plan specially offers Family Cancer Benefit⁵ to the Policyowner's parents, spouse and children (except the Life Insured). No medical examination and health questions are required for the Covered Family Members. If the parents, spouse or children is diagnosed with Cancer during the benefit term of the Family Cancer Benefit⁵, for each Covered Family Member, the Family Cancer Benefit⁵ of the Plan which is equal to up to 20% (applicable for 10 Years Premium Payment Term or 40% (applicable for 20 Years Premium Payment Term) of Total Initial Annual Premium will be payable to the Policyowner. Family Cancer Benefit⁵ could be claimed a maximum of 4 times and in which a maximum of 1 time for each of the Covered Family Member, and limited to one payment for one spouse only. The policy value and coverage of the Life Insured will not be changed due to the claim of Family Cancer Benefit⁵.

Family Cancer Benefit⁵	Parents	Spouse	Children
Maximum no. of Covered Family Members	2	1	No Limit
Benefit Term*	Before age 85 of Parents/Spouse		Before age 18 of Children
Benefit Amount	<p style="text-align: center;"><u>Covered Family Members who are under age 66 on the date of endorsement:</u> 20% (applicable for 10 Years Premium Payment Term) / 40% (applicable for 20 Years Premium Payment Term) of the Total Initial Annual Premium</p> <p style="text-align: center;"><u>Covered Family Members who are at or above age 66 on the date of endorsement:</u> 10% (applicable for 10 Years Premium Payment Term) / 20% (applicable for 20 Years Premium Payment Term) of the Total Initial Annual Premium</p> <p style="text-align: center;">(maximum of 4 times and in which a maximum of 1 time for each of the Covered Family Member, and limited to one payment for one spouse only)</p>		

* The Family Cancer Benefit for each Covered Family Member will be effective 2 years after (i) the endorsement date of such Covered Family Member or (ii) date of any reinstatement, whichever is later.

Also, the Family Cancer Benefit⁵ provides conversion privilege to the Policyowner's children to suit their needs. Within 30 days of the Covered Family Member reaches age 18, if no Family Cancer Benefit⁵ has ever been paid for such Covered Family Member, such Covered Family Member may apply for a new permanent life plan as defined by Hong Kong Life from time to time for an amount up to 100% of Sum Assured of the Plan without further evidence of insurability, subject to the specific terms and conditions, and the then administrative rules as determined by Hong Kong Life from time to time.

Life Protection and Flexible Settlement Option

Apart from Dread Disease Benefit, the Plan also offers whole life protection. If the Life Insured dies while the Plan is in force, the Total Death Benefit which is equal to 100% of Sum Assured, less Dread Disease Benefit⁶ already paid, plus Terminal Dividend (non-guaranteed)⁷ (if any), less Indebtedness (if any) will be paid to the Policy Beneficiary.

In addition, the Plan provides flexible Death Benefit Settlement Options⁸ instead of receiving the Death Benefit in a lump sum payment, Policyowner can designate other settlement options including Installment Payments (Fixed Amount) or Installment Payments (Fixed Period) while the Plan is in force and the Life Insured is alive to settle the Death Benefit to the Policy Beneficiary.

Additional Return

The Plan not only provides Guaranteed Cash Value, a Terminal Dividend (non-guaranteed)⁷ may be payable on or after the end of 12th Policy Year upon the death of the Life Insured, when the Policy is surrendered by the Policyowner, the Major Dread Disease Benefit is fully paid or upon Policy Maturity, whichever is the earliest.

Extra Service for a Continuum of Health Care

- Health Checkup Service⁹

During the first 10 Policy Years, the Plan provides one time of health checkup service to the Life Insured or Covered Family Members to enjoy every two consecutive Policy Years starting from the 2nd Policy Anniversary.

Important Statements

• Basic Plan

Risk

1. Exchange Rate Risk

You are subject to exchange rate risks for the Policy denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations.

2. Liquidity Risk / Long Term Commitment

The Plan is designed to be held until the Maturity / Expiry Date. If you terminate the Policy prior to the Maturity / Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

3. Credit Risk of Issuer

The life insurance product is issued and underwritten by Hong Kong Life. The premium to be paid by you would become part of the assets of Hong Kong Life and that you and your Policy are subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

4. Market Risk

The amount of dividends (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of dividends (if any) is not guaranteed and may be changed over time. The actual dividends payable may be higher or lower than the expected amount and value at the time when the Policy was issued.

5. Inflation Risk

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

Important Policy Provisions

6. Non-guaranteed Premium

The premium is not guaranteed and Hong Kong Life reserves the right to adjust it on a risk class basis.

7. Suicide

If the Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or the date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

8. Incontestability

The validity of the Policy shall not be contestable except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions, after it has been in force during the lifetime of the Life Insured for two (2) years from the Issue Date or the date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

9. Automatic Termination

The Plan shall terminate automatically:

- i. upon the death of the Life Insured; or
- ii. if and when Dread Disease Benefit has been fully paid under the Plan; or
- iii. if and when the Plan matures or is surrendered; or
- iv. if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions of the Policy unless Automatic Premium Loan applies; or
- v. if and when the Indebtedness of the Policy equals to or exceeds the Adjusted Guaranteed Cash Value; or
- vi. if and when the Adjusted Guaranteed Cash Value less Indebtedness (if any) is less than the premium required to maintain the Policy up to the next premium due date as specified in the Automatic Premium Loan provisions.

The Adjusted Guaranteed Cash Value is calculated as the Guaranteed Cash Value multiplied by one minus the ratio of the Dread Disease Benefit already paid to the Sum Assured.

Others

10. Premium Adjustment

Hong Kong Life has the right to review and adjust the Plan's premium rates for particular risk classes on Policy Anniversary, but not for any individual customer. Hong Kong Life may adjust premium rates because of several factors, such as Hong Kong Life's claims and persistency experience, historical performance and the future outlook of investment returns, and expenses directly related to and indirect expenses allocated to the Plan.

11. Insurance Costs

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

12. Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written notice signed by you should be received directly by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, the period of 21 calendar days immediately following either the day of delivery of the Policy or the Cooling-off Notice to you or your nominated representative (whichever is the earlier)). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

13. Cancellation

After the cooling-off period, the Policyowner can request cancellation of the Policy by giving thirty (30) days prior written notice to Hong Kong Life.

14. Dividends

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of Terminal Dividend. Terminal Dividend will be determined according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards. Terminal Dividend is available at the termination of the policies.

The amount of divisible surplus depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of Terminal Dividend is not guaranteed and may be changed over time. The actual Terminal Dividend payable may be higher or lower than the expected amount at the time when the policies were issued.

15. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Adjusted Guaranteed Cash Value, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and the Total Death Benefit of the Policy.

The Adjusted Guaranteed Cash Value is calculated as the Guaranteed Cash Value multiplied by one minus the ratio of the Dread Disease Benefit already paid to the Sum Assured.

16. Non-Protected Deposit

The Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The Plan is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

17. Dispute on Selling Process and Product

OCBC Bank (Hong Kong) Limited (“Appointed Licensed Insurance Agency”) is the Appointed Licensed Insurance Agency of Hong Kong Life, and the life insurance product is a product of Hong Kong Life but not the Appointed Licensed Insurance Agency. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Appointed Licensed Insurance Agency and the customer out of the selling process or processing of the related transaction, Appointed Licensed Insurance Agency is required to enter into a Financial Dispute Resolution Scheme process with the customer; however any dispute over the contractual terms of the life insurance product should be resolved between Hong Kong Life and the customer directly.

Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity, dread disease or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefit for this Plan is Terminal Dividend.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life’s internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns, claim payments, policy persistency rates, operation expenses and tax. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy’s dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience is significantly different from expected or if the future expectation is changed.

Investment Policy

The underlying investment is a dedicated fund managed by Hong Kong Life according to the investment mandate of participating fund specified in Hong Kong Life's internal investment guidelines. The fund's investments are mainly government bonds or corporate bonds with high credit rating and equities.

Generally, the asset allocation strategy is that at least 50% of the fund's assets will be invested in bonds mainly issued in US and Hong Kong, 0% to 40% invested in Hong Kong equities, and 0% to 10% in cash, with relatively higher allocation in USD denominated assets. The target currency mix of the fund's investments will vary according to the currency mix of Hong Kong Life's liability. Allocation of different asset classes will be reviewed regularly with considerations of the market conditions, economic outlook and global insights in order to generate sustainable long term returns.
