Notice on 9-Times Rule Enhancement

The enhancement to the 9-Times Rule in the Hong Kong Securities Market will take effect on **2 November 2026**.

Under the current 9-times rule, a buy order or a sell order shall not be made at a price that deviates by 9 times or more from the nominal price, if available. To further reduce order input errors and enhance market safeguards, Hong Kong Exchanges and Clearing Limited ("HKEX") will implement the following enhancements:

(a) For all securities other than structured products

The threshold will be changed from 9 times to 5 times. Orders with a price deviation of 5 times or more from the nominal price will be rejected.

(b) For structured products

There will be no change. Orders with a price deviation of 9 times or more from the nominal price will be rejected.

Please review your order prices carefully before submitting orders to avoid rejection by the market.

For further details, please visit HKEX website.

Risk Disclosure
Client should acknowledge and agree to independently verify HKEX announcements and update rules, the bank shall not be liable for losses from unfilled orders, order rejection or other slippage risk due to quotation mechanism variance.
The price of securities fluctuate, sometime dramatically. The price of a security may move up or down, and may become valueless. It is likely that losses will be incurred rather than profits made as a result of buying and selling securities.
